# What are the Facets of Life at Oglethorpe?

Life at Oglethorpe University is very much like a diamond. It is full of sparkling facets that add a beauty and rarity that we will be able to treasure forever. Oglethorpe's location in Atlanta, our dignified and stately campus, a wide array of student activities, interesting and practical classes, and creative and friendly people are all facets that join together to make Oglethorpe an experience that is rare and memorable. Our location in Atlanta, a radiant center of culture, opportunity, and fun, is one of the special facets that makes Oglethorpe a valuable place. Our ever-changing campus also reflects a facet of life that spans from stately study halls to modern chemistry labs. The activities at O.U. are as varied as the people who participate in them. Be it a drafthouse or a faculty-student softball game, there is always something happening. The classes add another special facet to our University life, satisfying the creative, the scientific, and the practical. Oglethorpe people are also a brilliant facet, being a special and outgoing set of individuals who are making the best of their Oglethorpe years. All of these things and many other facets make Oglethorpe University the unique place that we know it to be.

# Is it the Atlanta area?

Atlanta is important in the Oglethorpe students life because there one can find a job, recreation, sports, food, and entertainment. Atlanta is one of the fastest growing cities with more and more to offer each year.

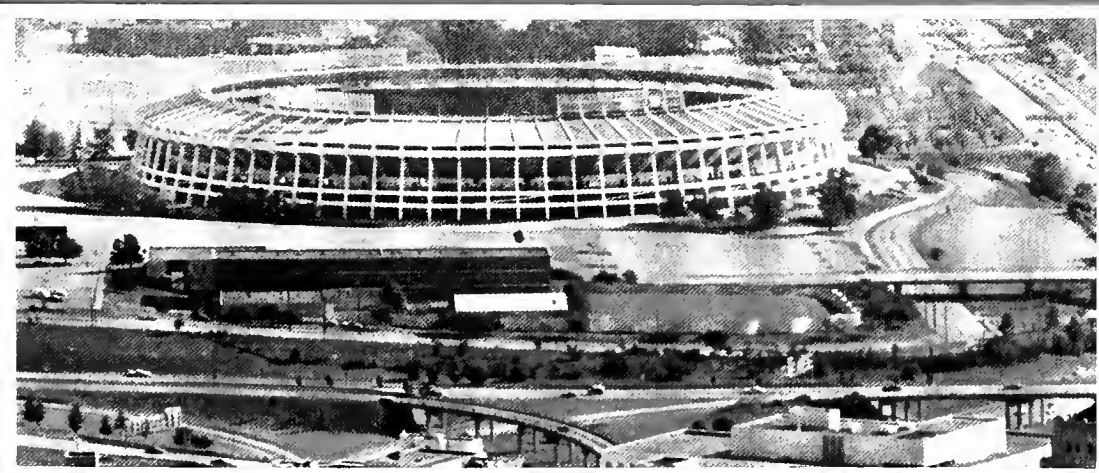

The Varsity, which is known as the world's largest drive-in, is located near Georgia Tech. At The Varsity a student is able to choose from a wide variety of fast food items ranging from hot dogs to their famous frosted orange. The Varsity is a popular place to go after a late night of studying or a day in the city.

Tower Place 6 is one of the many theaters located near the Oglethorpe campus. Tower Place is located near Lenox Square, a popular shopping mall for the students. Theaters are also located at Phipps Plaza and Perimeter Mall. Although movie prices are around \$1.00 this year, movies are still a popular form of entertainment. Another popular form of entertainment for students is attending the professional sports games. The Atlanta Fulton County Stadium is the home of the Braves and Falcons.

Upon arrival in Atlanta one of the first things a person notices is the Peachtree Plaza Hotel. The trip on the glass enclosed elevator up seventy-two stories gives one an exhilarating view of Atlanta.

As one can see, Atlanta has a lot to offer the Oglethorpe student. No one could find themselves bored in Atlanta because there are so many things waiting for you to become involved in.

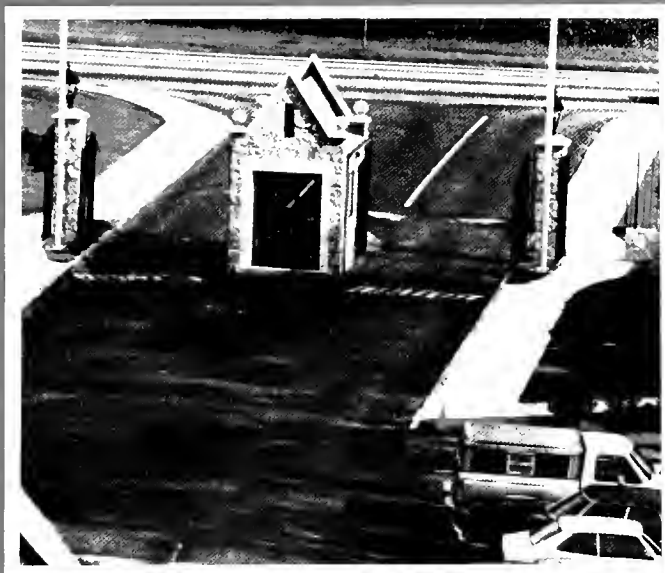

Is it the campus?

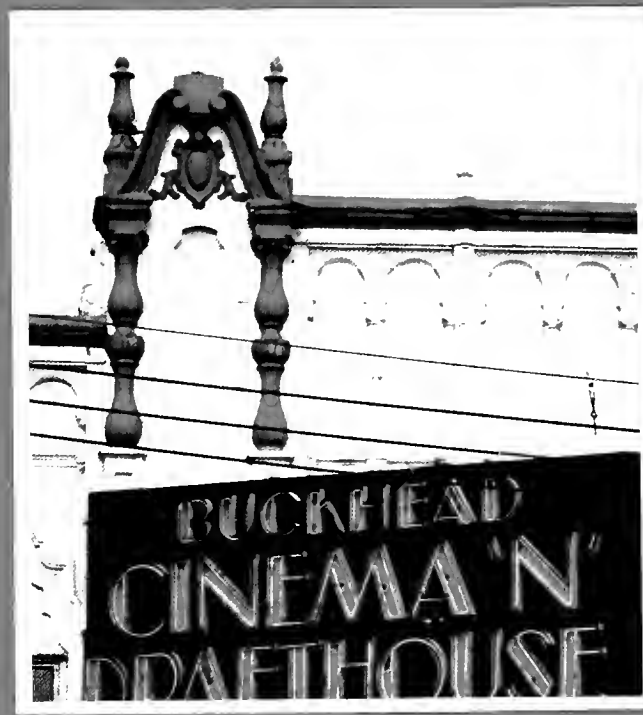

Styled principally in neo-Gothic architecture and modeled after Corpus Christi College in England, the Oglethorpe campus is one of outstanding beauty and dignity. From the carillon bells above Lupton Hall to the stately classroom buildings of Hearst and Faith, and echoing across the quad toward Lowry Library, Oglethorpe rings with tradition.

Aesthetically combining both old and new, Dorough Fieldhouse, with its quality athletic facilities and Emerson Student Center, with its modern, exposed-beam architecture were added to the campus to compliment a growing university, adapting to the needs of its students and their continuing search for excellence.

Always changing, renovations are constantly undertaken as plans to remodel and refurnish the five men's and two women's dormitories are in progress. Goslin Hall, the newest building on campus, houses the growing science and math programs, providing both laboratory and classroom space to those in pursuit of higher knowledge.

All in all, the campus is both functional and attractive. Once you pass through the Gothic patchhouse by Hermance Stadium, however, you come to realize that the Oglethorpe experience is made up of much, much, more...

## Is it the activities?

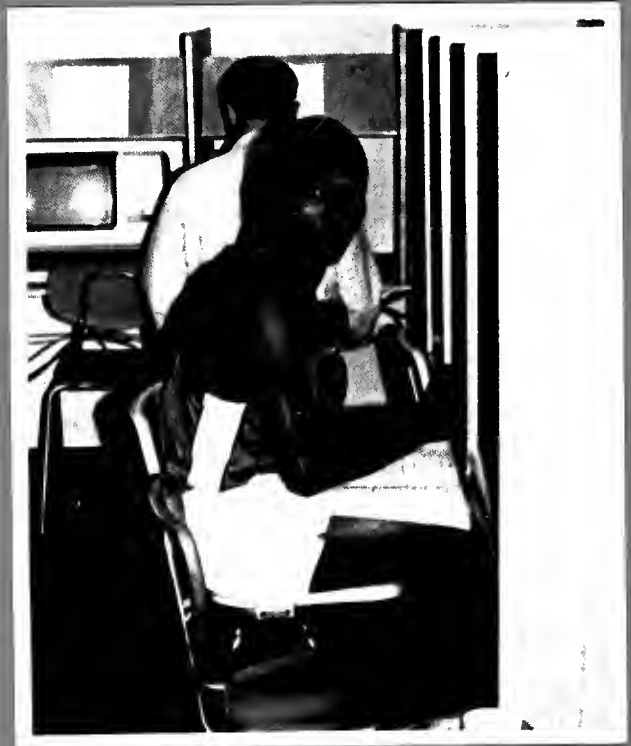

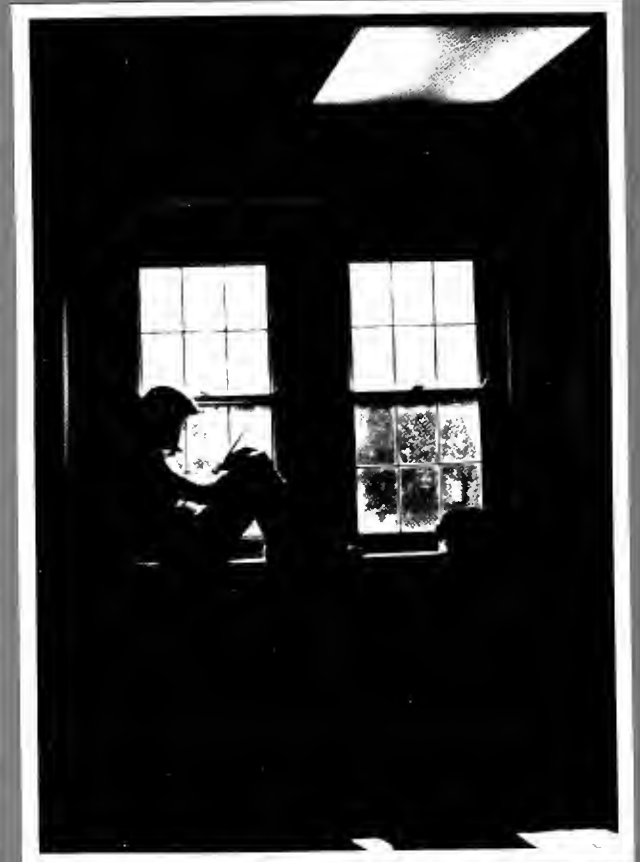

Social Life. What comes to your mind? Of course, among the first (if you are a typical O.U. student) is the Fraternity parties. No one can forget those memorable Chi Phi, SAE, and KA parties where the hunch punch makes you feel like you were punched the next morning. Then of course there are the bars, dancing spots, (like Sowers on "Oglethorpe Nite") and Buckhead Cinema. Yeah, sure, those are definitely the predominant part of the campus "night-life", but how

about the things that occur on the campus? Like, the Labor Day picnic, the Faculty-Student softball game, and the dances. No one would dare miss students like Dan Duncanson strut his stuff in a cheerleaders outfit at the O.U. Halloween dance. Or, how about the famous midnight munchie runs to the Burger King, or calls to the Dominos Man. In any case, whatever comes to your mind, there is definitely a social niche to fit everybody.

# Is it the classes?

We are all here to get an education, but we each go about it in our own way. Some of us are aspiring to be lawyers, teachers, doctors or people in the business world, while others are taking courses to find out what areas interest us.

We will each use what we have learned while attending Oglethorpe in different ways in our varied facets of life.

Each of us will have our favorite professors and classes. We all will remember our classes, the numerous assignments and tests that all seemed to come at once, whether they were a computer program, a biology lab, or a math test, and the time we spent between classes reading, relaxing, or talking with friends in the halls.

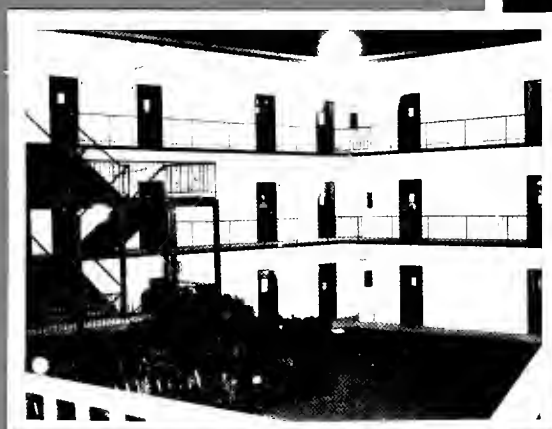

## Is it the people?

The people are what make up the Oglethorpe community. We bring with us our own ideas, beliefs, and values from a wide variety of backgrounds and experiences. We have students just out of high school, mothers coming back to school, business people taking night classes after work, and retired people coming back to enrich their lives in a new area.

While the people are here they get acquainted with others who share common interests and goals while we still strive to keep our individuality.

Wrapping up a night at O.U. entails different things for every student. For some of us (a rare breed) it means just kicking our feet back and shooting the breeze. On the other hand, for some O.U. individuals, it is "working" time, like those students who lay out the school paper until early morning or the guardhouse students. Speaking of which, anyone who spends his nights

out partying will know that these guardhouse students become a familiar sight very quickly, since after hours, we girls need to acquire that coveted Traer key to get in. Or, at times when it seems as though your professors plotted against you and all gave you tests within the same three days, some of us pull what seems like endless all nighters studying for those

tests. Still others of us seem to spend virtually every night at a meeting of some sort, or trying to meet a deadline. Well, whatever facet you fit in from day to night at O.U., I'm sure we'll agree that all of us start and end each day at the same unique place, Oglethorpe.

**Receiving the pass,** Adam Petty gets ready to go with the ball as a UNC-A opponent goes in for a slide and tackle.

**Always on the ball,** Foster Harbin races for possession of the ball against a UNC-A opponent.

**Even when injured**, players like Pat Regan would rather be playing than watching.

**His last game**, captain Dave Gerhardt gives it his all in trying to get the ball away from P.C.'s Mike Eckardt to try to score and break the 1-1 tie.

**A veteran**, fullback Eric Smith contemplates his next pass out of OU territory as Frank Lawson of P.C. approaches.

After their first two losses, Coach Reynolds commented, "As soon as the freshmen settle down and learn to play with each other, things will be okay." The fact that the team won the next four games straight seems to prove him right. Still, the team had its ups and downs. At first, the lack of veterans seemed as though it might be a detriment, but what seemed to be a handicap ended up being their ace in the hole. Freshmen such as Mike Galyean and Eric Garvey proved themselves over and over. Eric Garvey, who started every game as forward, was the team's leading scorer. Returning players Dave Gerhardt and Tony Murphy turned out to be the backbone for the team. Although Tony only played as

# Heading Towards Their Goal

## Heading Towards Their Goal

keeper the second half of the season, he showed his opponents that he knew how to play his position. Tony had a great season, making some incredible saves and rarely letting the ball go into the goal, and then only, on direct foul kicks or in one-on-one situations. Dave Gerhardt's contributions fell on both sides of the line, both offensive and defensive. At the Kennesaw game he made a goal "from what seemed like the center line" said Stacey Bronstein. In the game against Presbyterian College he made a great save to deny P.C. a score. Still, the soccer team did have their problems, one of the big ones being injuries among the starting players. Injuries such as Dave Gerhardt's knee, Tony Murphy's back, Pat Regan's foot and John Salamone's ankle all seemed to hurt the team's depth and efficiency. However, whatever the problems, the team did well and will "be ready to win a lot more next year," stated Coach Bucky Reynolds.

**Top scorer of the season**, freshman Eric Garvey goes for a score against the UNC-A Bulldog's Matt Lis. **An outstanding keeper**, Tony Murphy comes through once again in saving the ball, (for one of ten saves), in the game against Presbyterian College.

Proving once more that OU makes effective use of heading. Mike Cheek heads the ball away to deprive Todd Griffies, of P.C., possession of the ball.

Add a couple of great spikers, setters, servers and overall bumping talent and what do you get? The OU Girls' Volleyball team. So why the losing record? If you take a closer look at the record, it indicates that a lot of those losing games were very close. However, it doesn't indicate the amount of sweat and turnovers that occurred before the opposing teams won those games. It also doesn't indicate the injuries, such as Linda Puglisi's foot or Julie Quickmire's back. Nor does it indicate the times that the team "lacked enthusiasm and spirit," said Linda. Conversely, the final tally doesn't indicate all the games where the volleyball team came back from deficits to lose in a close race for the final points. This can be seen in the fifth game in the Fisk match, where the team came back from 3-13 to lose 12-15. Then there were the times where the team worked like a well oiled spring—bumping, setting and spiking in such a synchronized fashion only to lose by a fluke, as in the first match against Mercer. What the season does show is that this team has the potential to have a 15-0 record. But, whatever the record shows, the Lady Petrels "were a formidable opponent," said fan Scott Zraggen.

**An able defense,** Lil Klein and Diane Dubay go up for a block against Spelman.

# Kings the of Court

By far the best record in several years, the Petrels stormed the season to end up with a 17-8 record. The team Seniors, Maurice Thomas, Jay Vanderhorst and John Shelnutt were large contributing factors to this outcome. Along with Willie Lawton and Bruce Benton these three Seniors were consistent and strong scorers. They ended up with 283, 234, and 191 points respectively for the season. Maurice also led the team in rebounds. Other factors were the team's cooperation on the court, the ability to get the ball on a rebound and the ability to score almost every time they took the ball down the court. The only problem the Petrels encountered was the inability to get their act together to win away games. "You'd almost think they needed their fans to win," said Cheerleader Renee Byland. This seemed to be proven by the away Georgia State game where O.U., the underdog, won the game 74-70. "Everybody showed up," said Larry Frank. In spite of their trouble on away games, their record shows that the team is stronger than ever.

Senior John Shelnutt, taps the ball against Baptist American University's Jimmy Smith to give O.U. possession of the ball to start us off to our 87-56 win.

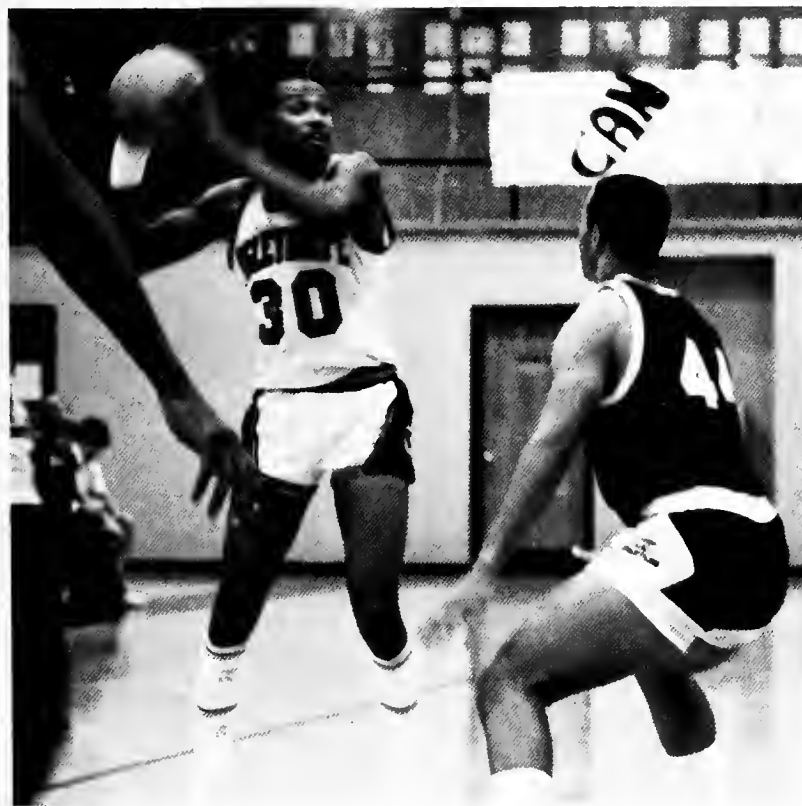

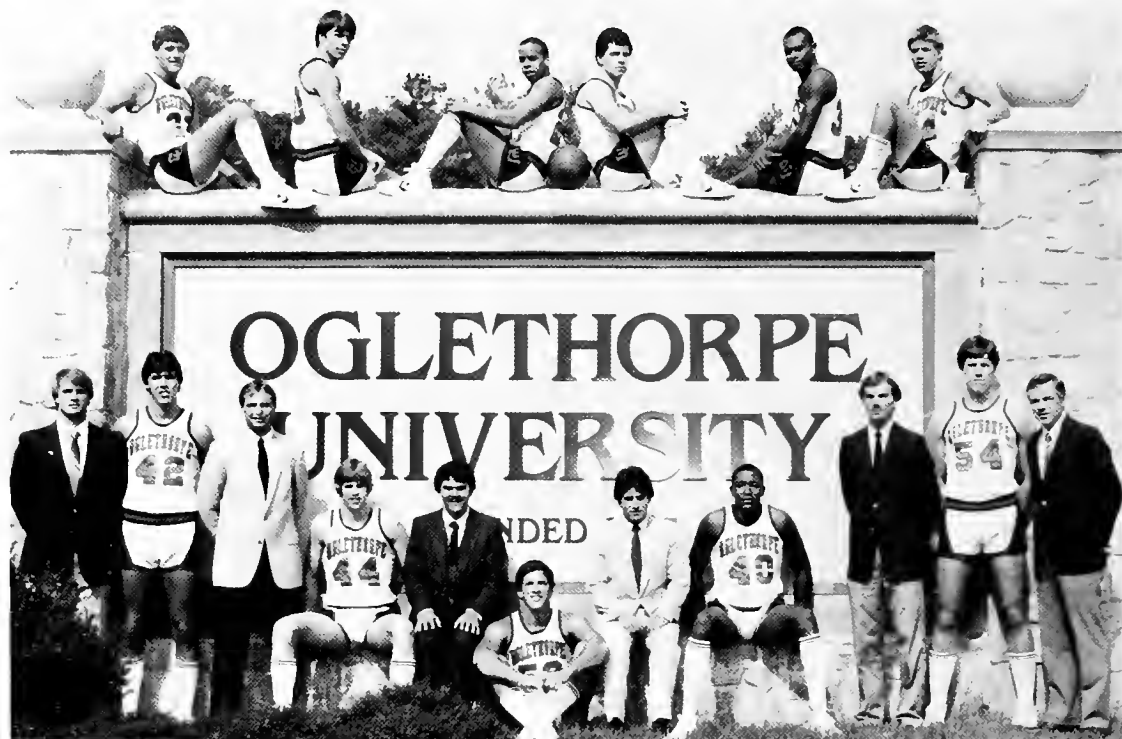

**Starting player,** Bruce Benton comes back from an arm and nose injury to be a strong offensive player. Here he scores another basket against Maryville's #40 David Kirkpatrick.

**Not only teammates,** John Shelnutt and Jay Vanderhorst are roommates too. Here they collaborate on a play to make another basket against Maryville's Mike Austin.

**A strong player** Marohn Callins, fakes out Balaam Ellir and Nick Lloyd of UNC-Greensboro to take the ball himself to score a basket in the 75-60 win.

## One In Spirit, Apart In Effort

The lack of numbers really hurt the team's viability because "if only one guy was missing, we couldn't qualify as a team, we could only compete as individuals," said member Doug Dubay. Five members need to be present to qualify which meant that the women's team never did qualify, but that didn't stop them. Bonnie O'Harrow, Liz Solomillo, & Jill LeFebvre were an inspiration in that they continued to come out as a team, even though competitive-wise they never were. Individual effort became the key word for all, both men and women. In any case, next year is already looking up as "4 of the 5 present male members are returning and we have some hopefuls coming in with the freshman class," stated Coach Marshall Nason.

**Runner, Eric Drick**, runs his best time for 5 miles at the O.U. Invitational, a 32:50.

**The Oglethorpe Invitational** race also turned out to be a triumphant day for Jill LeFebvre as she cuts a minute off her previous time for 24:29.

**Warming up** for their runs, O.U.'s Cross Country teams are united even though its the individual that counts, (left to right: Doug Dubay, Eric Drick, Bonnie O'Harrow, Liz Solomillo, Greg Hightower and Rob Boggus).

# SPIRIT RAISERS

## Work-Study

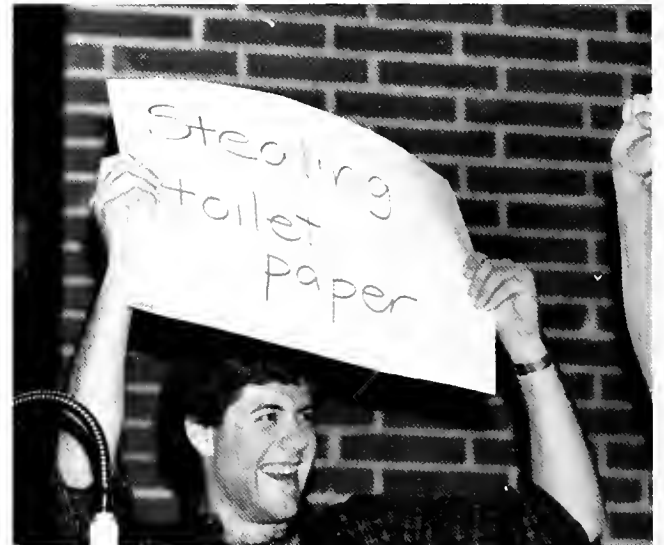

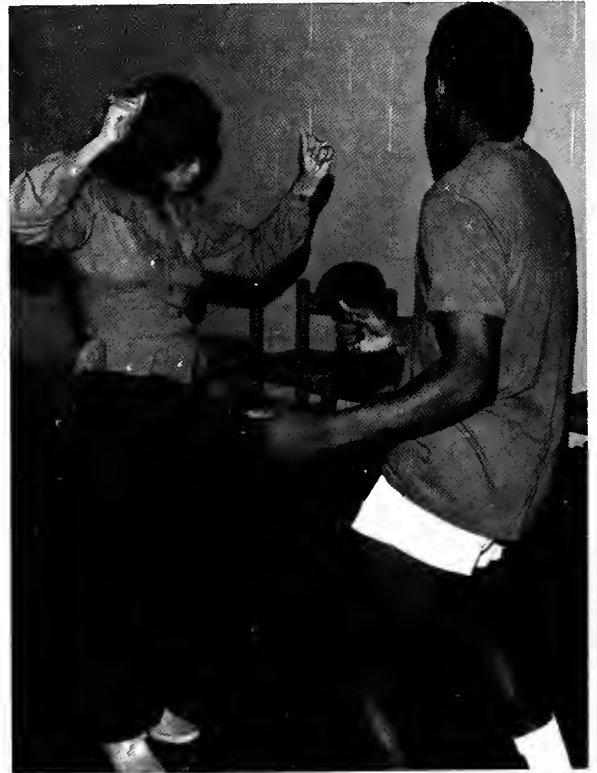

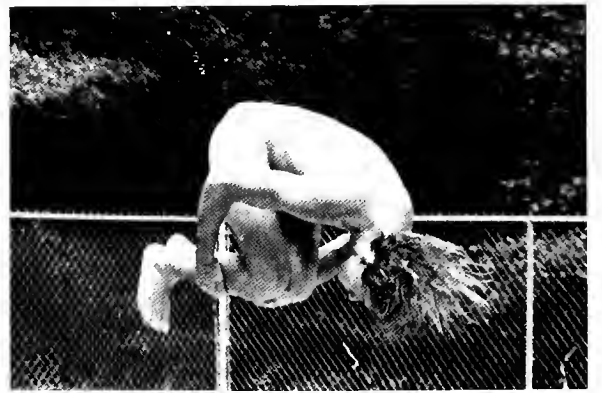

These students are on Oglethorpe's Work-Study program. Students are accepted into the program if they have financial need and are willing to work. Work-study students work right on the campus in the Bookstore, the Student Center, the Library, the field-house, or in one of the many other University offices. The paychecks can either go directly to the student or towards the student's tuition. Work-study is a convenient alternative to having a part-time job off campus for many of Oglethorpe's students.
